SACRAMENTO UPDATE

State Budget

Senate Budget Hearing on the Governor's FY 2006-07 Proposed Budget. On January 26, 2006, the Senate Budget and Fiscal Review Committee held an overview hearing on the Governor's FY 2006-07 Proposed Budget. Presentations were made by Vince Brown, Chief Deputy Director, Department of Finance and Elizabeth Hill, Legislative Analyst.

Committee Chair, Senator Wesley Chesbro, opened the hearing by stating that the Proposed Budget presents a more reasonable starting point than in past years because of increased revenues. However, he said the Governor's proposal to delay the Federal SSI/SSP COLA for an additional 15 months for California's most vulnerable population is "dead on arrival" with Senate Democrats. On a motion by Senator Denise Ducheny, the Committee rejected the Governor's proposal on the SSI/SSP COLA on a 7 to 4 vote.

Mr. Brown indicated that the Governor's Proposed Budget is balanced, provides for no tax increases, and continues to make progress to pay down the deficit. Ms. Hill expressed concern that the Proposed Budget goes in the "wrong direction to get the State's fiscal house in order," because it increases spending by more than \$2 billion on program expansions, rather than paying down outstanding obligations. Although Ms. Hill stated that her upcoming revenue forecast is likely to be similar to the Administration's, she said that the ongoing structural deficit still would be about \$5 billion in 2007-08 and in 2008-09. She further cautioned Committee members that the Proposed Budget does not recognize other potential budget-related pressures such as State collective bargaining agreements, various court orders and lawsuits, unfunded local mandates, and the negative impact of the pending Federal Budget Reconciliation legislation.

Senators Dennis Hollingsworth and Tom McClintock continue to express concern about the State's ongoing structural deficit, and queried the Administration on how it will bridge the gap between revenues and expenditures. Mr. Brown replied that the Governor is committed to bringing subsequent budgets into balance over the next couple of years. The Administration also said that, while California will continue to enjoy a robust economy, cost-cutting proposals may once again be put on the table to bring revenues and expenditures into alignment.

Budget subcommittee hearings will begin in February, and the Legislative Analyst will release its analysis of the Proposed Budget on February 23, 2006.

Bonds

Court Facilities Bond. On January 24, 2006, the Senate Judiciary Committee held an informational hearing on the \$1.8 billion courthouse bond package proposed by the Governor. Testimony was provided by representatives of the Department of Finance (DOF) and the Administrative Office of the Courts (AOC). The DOF outlined their proposal for two bonds, one for \$800 million in 2006, and one for \$1 billion in 2010. Representatives of the AOC testified that there is a \$9.8 billion need, including \$700 million for space occupied by county agencies, sparking some debate about the adequacy of \$1.8 billion. During a post-hearing discussion about the Los Angeles County's public/private partnership proposal, a DOF representative expressed some interest and requested specific language.

The Committee has scheduled a hearing and vote on the Governor's proposal, which is contained in SB 1163 (Ackerman), for Monday, January 30.

Infrastructure Bond and Funding Proposals. The Assembly Democratic and Republican Caucuses held separate press conferences on January 25, 2006 to announce their respective infrastructure proposals.

Assembly Speaker Fabian Nunez, Assembly Water, Parks and Wildlife Committee Chair, Lois Wolk, and several Assembly Democrats outlined a proposed 2006 Assembly Flood Protection Package which includes flood protection financing through bonds and other funding sources, legislation that would incorporate flood planning and other local land use revisions, statewide planning and mapping, emergency preparedness and response, and comprehensive flood liability reform. The package is contained in AB 798 (Wolk), relating to delta levee subventions; AB 802 (Wolk), relating to flood protection and land use; newly-introduced AB 1899 (Wolk) relating to flood protection requirements for new developments; and AB 1898 (Jones), relating to flood insurance and liability.

Also, a portion of the Assembly Democratic package is contained in Assembly Budget Committee Chair John Laird's AB 1665 which relates to Sacramento River and San Joaquin River flood control and levee programs.

Speaker Nunez spoke briefly on his own infrastructure financing bill, AB 1783. As introduced, it indicates legislative intent to develop a financing framework for infrastructure improvements. The Democratic Assembly website notes that the bill will be further developed in the bond conference committee, and that the measure's priorities include: transportation improvements and environmental mitigation; flood control, delta protection and safe water systems; natural resource protection and green development; housing construction and land use; hospital seismic retrofits and patient safety; and emergency response and preparedness.

Assembly Republicans outlined a pay-as-you-go approach that proposes to fund infrastructure improvements out of the State General Fund. The vehicle for this plan is ACA 27 which is authored by Minority Leader Kevin McCarthy and co-authored by the Assembly Republican Caucus. The measure would, commencing in FY 2007-08, allocate the lesser of \$750 million, or 1 percent of the State's General Fund revenues, as specified, to infrastructure capital outlay projects "of statewide significance or interest," to include projects as diverse as roads, waterways, to educational facilities. This would make approximately \$15 billion available for these projects over a 20-year period.

Senate Committee Changes

On January 24, 2006, Senate pro Tem Don Perata announced a number of changes to the size and composition of Senate committees. The changes are included in SR 21 (Perata) which is pending Senate Floor action. Sources in the Senate say that the bill is awaiting further modification.

Attachment I outlines the most recent changes of Senate Committee sizes and memberships. It should be noted that the memberships of three of the Committees are pending selection.

Hospital Financing Waiver Hearing Postponed

A Joint Informational Hearing of the Senate Health Committee, the Senate Budget Subcommittee No. 3, the Assembly Health Committee and the Assembly Budget Subcommittee No. 1 has been postponed from February 7, 2006 to February 21, 2006. The hearing will be held from 1:30 p.m. to 5:00 p.m. and it will focus on the implementation of the Hospital Financing Waiver and the coverage initiative. Representatives from the Administration will be presenting testimony.

Select Committee on Foster Care

The next hearing of the Select Committee on Foster Youth, chaired by Assembly Member Karen Bass, will be held on February 15, 2006 from 2:00 p.m. to 5:00 p.m. in Sacramento. The Committee will be discussing the issues and needs of relative caregivers and the foster youth for whom they provide care.

Little Hoover Commission Emergency Preparedness Subcommittee Meeting

The Emergency Preparedness Subcommittee of the Little Hoover Commission has scheduled a meeting with Los Angeles officials, emergency preparedness experts and private sector representatives on Tuesday, January 31, 2006. The meeting will be from 10:00 a.m. to 1:00 p.m. at City Hall East in the City of Los Angeles Emergency Operations Center at 200 North Main Street, Los Angeles. Carol Meyer, Director of County's Emergency Medical Services Agency, will be attending.

Status of County-Interest Legislation

County-supported SB 466 (Kuehl), which would have allowed a local agency to use a mobile photo radar system to enforce speed limits on streets within residential districts and school zones, was recently amended to authorize a pilot project within the City of Beverly Hills to use a mobile photo radar enforcement system within residential districts and school zones. The Department of Public Works recommends that the County continue to support SB 466.

County-supported AB 1090 (Matthews), which would have defined conversion technologies, promoted their development by incorporating them within the State's waste management hierarchy, and provided diversion credit to jurisdictions that utilize such facilities, was recently amended to remove the authorization for jurisdictions to earn diversion credit for the use of conversion technologies. The Department of Public Works is currently reviewing the amended version of the bill to determine if the County should continue to support it.

A roster containing the status of all bills of County interest can be found as Attachment II.

We will continue to keep you advised.
